PROFILE

Highly dedicated MCA graduate with a profound focus on Cloud Computing and DevOps, complemented by expertise in Java and Fullstack Development. Avid participant in Hacktoberfest, demonstrating a keen enthusiasm for open-source contributions. With a strong foundation in Data Structures and Algorithms, I am driven to craft efficient and scalable solutions. Eager to connect with like-minded professionals and engage in meaningful collaborations to shape the future of technology.

WORK EXPERIENCE

Teaching Assistant(development) (06/2022-02/2023)

Learn For Cause

- Learn For Cause is on a mission to turn global software engineering wages into a meritocracy, regardless of where someone is born. Today we are focusing on upskilling India's upcoming software engineers and pairing them with organizations allowing them to contribute to live open source projects.
- At LFC we believe that our growth is the derivative of the growth of each one of us. To achieve our vision of Leadership through Global Talent Development, we are always looking out for creative, talented, result-oriented individuals who are ambitious, love challenges and have a passion to excel!
